CAPSTONE

SUPERIOR PROTECTION - NATURAL LOOK

Aesthetics and cleanliness is everything in restaurants. Capstone provides the increased protection needed for restaurant floors, without sacrificing the natural look of stone or increasing slip of the floor. Apply Capstone interior or exterior for a high performance, long lasting sealer on ceramic, porcelain, all natural stone, or concrete.

Natural

A micro thin film, Capstone provides protection with a very natural appearance. Capstone will enhance the natural beauty of stone, providing protection without high build and high shine, offering a safer surface for slip and fall prevention.

Wear Resistance

All hard surfaces, Use on patio's, entrances, dining area, storage areas, and kitchen. Capstone holds up well to problem areas like, chair legs and pivot points. Capstone was designed for demanding high traffic areas and is highly resistant to scratch, scuff, mar, and heavy foot traffic.

Stain & Chemical Resistance

Formulated for high chemical resistance. Acidic food spills do not damage Capstone, even mustard and wine.

No Polishing

No need to polish the floor, just thoroughly clean and apply Capstone.

Easy Cleaning

Stains and soil do not penetrate the surface, making cleaning fast and efficient.

Fast-dry Minimal Downtime

Between coats, allow one hour dry time. Return to service, fast!

Walls or Floors

Capstone can be used to seal vertical or horizontal surfaces. Capstone is suitable in any area to brighten the natural beauty of the surface without adding shine.
