

LAMELLA™ MOP-ON
Ceramic & Stone Floor Finish

LaMella Mop-On is a high performance catalyzed water-based floor finish for ceramic, porcelain, quarry tile, & natural stone.

Ease of application with long-term performance

- Flat mop application, no special training required
- High performance catalyzed system
- Gloss finish
- No polish or burnish required after application
- Excellent adhesion without chemical etching
- Water Based—no harsh solvents, low VOC, low odor
- Excellent chemical resistance
- Excellent scratch and mar resistant
- Resists soiling for fast cleaning
- Easy to repair with 'hogs hair' buffing pad
- Resistant to yellowing
- Excellent adhesion to grout lines
- Thin film application
- Excellent off the mop flow and leveling

Additional advantages

- Enhances the Depth-of-Image (DOI) of floor substrate
- Fast dry: 30-60 min recoat time
- Coverage: 1200-1500 SF per gallon on smooth surfaces
- Only two coats for outstanding performance
- Less than 1% VOC, CARB Consumer Goods Regulations
